* The repayment example set forth above is for illustrative purposes only and was calculated based on a standard amortization Federal Direct Unsubsidized loan assuming a loan amount of \$15,150, a payment term of 10 years and a fixed interest rate equal to 4.3%. Loan amount of \$15,150 is the total cost of the two year program, based on the tuition rate for students beginning the Master of Education program in the 2020-2021 school year. Your total loan amount may vary based on program selection. The loan calculator used in this example is available at www.studentaid.ed.gov. The loan repayment estimate provided is based on the tuition for this program alone, and does not take into account any previous loans you may have borrowed. It is your responsibility to verify your eligibility by completing the Free Application for Federal Student Aid at www.fafsa.ed.gov. All loans are subject to federal student aid guidelines. The actual interest rate may change periodically based on federal regulations. If you elect to defer payments until graduation, loan interest may accrue during deferment.
