

**Any student has the ability to participate in
Odyssey of the Mind!**

Odyssey of the Mind is an international competition for kids in grades kindergarten through college that solve creative long-term and spontaneous problems. The teams are comprised of up to seven team members that work together during the school year to solve the problem and then compete at the regional, state and world competitions.

If your middle school child is interested in one or more of these subjects then Odyssey of the Mind is for him/her!

We will have an informative meeting in the middle school library on **Wednesday, Oct 6, 2021 at 7:00PM for parents and students** who might be interested in the program.

To find out more about this program you can go to the following websites:

odysseyofthemind.com
