

Let's manage kidney disease together.

Introducing your kidney health management program

Highmark Blue Shield is working with Healthmap Solutions (Healthmap), a leading kidney health management company. Healthmap offers a care coordination program at no additional cost that works with you and your doctor to help manage your kidney health. Through early detection and better management of your condition, Healthmap's Care Navigators will help you take charge of your health and well-being.

Your Care Navigator can:

- Work with you one-on-one between doctor visits to provide a personalized approach to your condition.
- Review your medications to make sure you have what you need.
- Help you manage and schedule your doctor visits.
- Connect you with community-based services for meals, transportation, or any financial concerns.
- Provide education on your condition, including dialysis, early transplant planning, and ways to improve your nutrition.

Kidney disease is manageable.
Especially when you have the right team.
